Advanced Placement United States History

Course Description

The AP U.S. History course is designed to provide students with the analytic skills and factual knowledge necessary to deal critically with the problems and materials in U.S. history. The program prepares students for intermediate and advanced college courses by making demands upon them equivalent to those made by full-year introductory college courses. Students should learn to assess historical materials—their relevance to a given interpretive problem, reliability, and importance—and to weigh the evidence and interpretations presented in historical scholarship. An AP U.S. History course should thus develop the skills necessary to arrive at conclusions on the basis of an informed judgment and to present reasons and evidence clearly and persuasively in essay format.

At Hillcrest High School, we recognize the importance of daily class attendance and participation. Interactions with teachers and classmates on a regular basis are critical to the learning process. Even missing just 2 classes per quarter is missing 10% of your time in that class! The HHS attendance policy is designed to hold students, parents, and teachers accountable for classroom instructional time.

At Hillcrest High, a student’s absences (A, W, and G coded) and tardies (T coded) will be added together. If a student accumulates a total of 5 or more (absences + tardies) and does not attend make up, the student will receive no credit (NG) for that class. Each class will be evaluated independently. Parents should notify the attendance office of any absence within 48 hours.

Excused Absences (those documented by a doctor’s note, funeral program, wedding program, etc. and E coded) and School Excused Absences (N coded) do not count in attendance totals.
On the 5th violation (tardy or absence) and any subsequent absence or tardy within the quarter, students must attend student support time with the teacher who recorded the attendance violation in order to receive credit for the class for that quarter.

NG’s from all previous quarters may be made up with a Green Card available in both the Attendance Office and the Counseling Center.

History of the Americas

Course Description

Scholars in IB History of the Americas will study history by engaging with it through the analysis of primary sources as well as secondary sources including the work of other historians. The goal of IB History of the Americas is not to memorize historical “facts” but instead to pose questions and analyze events as a historian would. Scholars will be challenged to understand the relative nature of our knowledge of history and be able to tolerat uncertainty. Through the study of various topics in depth over time, scholars will come to appreciate how the history of the Americas is interdependent with the history of the world. Additionally they will come to see how historical interpretation can lead to an understanding of the various peoples of the world, their culture, current events, and history’s impact on our shared global future.
