Welcome to Class

Accommodated Core class, is a specialized program that focuses on teaching basic to advanced skills in the four main core areas; Language Arts/Reading, Math, Science, and Social Studies. Throughout the school year the students will work on all core related goals such as comprehension and fluency, reading, writing, speaking, and listening while also following the Common Core standards and curriculum.

Retakes

The students are expected to give 150% effort in the classroom so that they can do well on the first attempt. However, all students will have the opportunity to make up any work and/or retake any quizzes and tests throughout the school year. They can do a retake with an unlimited amount of attempts in order to help them understand the contents that they are being tested on.

Participation

Students are expected to be active learners. This will require them to interact with the teacher and with their peers during specific activities, especially during group discussions. This is designed to help the students truly learn the material that is being taught along with developing proper communication skills.

Attendance Policy

Students who have more than 4 attendance issues will receive a No Grade for the class unless they make arrangements with the teacher or administration to make up their absence/tardies. A copy of the schools attendance policy is attached and will be strictly followed in this class!
